Purchase Price

Buyer agrees to the purchase price of \$ _____ for dog. Buyer must pay in full prior to taking possession of the dog. **Purchase price includes full breeding rights for this dog.**

Health Guarantee

1. Dog is a Labradoodle. Pedigree is correct and given at the time of sale. Dog is registerable with the CKC (Continental Kennel Club).
2. Dog will be free of hereditary crippling defects visible by 12 months of age. Dog will be replaced, provided dog is returned to seller, at the buyer's expense, within 14 days of discovery of such hereditary crippling defect. Buyer must provide documented proof of this hereditary defect by a licensed veterinarian. Seller will reserve the right to get a second opinion by Seller's licensed veterinarian. Buyer must also show proof of regular veterinarian pet care by a licensed veterinarian.

3. In order for the Health Guarantee to be honored, at the expense of the buyer, buyer must take dog to a licensed veterinarian within **72 hours** of taking possession of dog for a health exam. Proof that the dog has been seen by a licensed veterinarian within this time frame must be sent to the seller within the 72 hour window.
4. Seller will accept returns of the dog at a full refund up to 7 days from original date of purchase. Arrangement and cost of transportation are the responsibility of the buyer.
5. If buyer chooses to return the dog within 7 days from original purchase date, dog must be returned in the same health/condition as they left seller with a health certificate from a licensed veterinarian.

NO OTHER WARRANTIES EXPRESSED OR IMPLIED

6. If the Buyer ever must give up ownership of the dog, for whatever reason, at whatever age, said dog must be returned to the seller, at the Buyer's expense, unless other agreements are made between the Seller and the Buyer.

Alteration Agreement

If the Buyer decides to forego breeding rights and neuters or spays this dog; breeder recommends this be done no earlier than one year to 18 months. If Buyer chooses to neuter or spay their dog prior to one year of age Buyer understands that the Breeder cannot guarantee dogs hips, knees and elbows. There is scientific evidence that states early neutering and spaying reduces the hormone levels that are required to assist in full development of canine growth plates.

Welcome to the LLL family. We hope you enjoy and love your new family member as much as we have enjoyed loving and training them.
